intAct Bike-Power HVT

Motorcycle batteries | completely maintenance free
Sealed SLA block batteries

The intAct Bike-Power HVT batteries can be installed in any position. With their advanced and tested quality, these bundles of energy are completely maintenance free and leak proof. They offer plenty of safety reserves and are fully recyclable. These batteries are manufactured in a completely sealed system with set electrolytes. They can also be used for special applications including motor-

cycles with ABS (our top model: SLA12-20, 12 V, 20 AH, 300 A (EN) suitable for BMW motorcycles with ABS).

The types HVT 1 to HVT 10 are manufactured as a particularly robust and shake-proof model, specially designed for Harley-Davidson motorcycles.
