Sealed armour plates – tubular plates- lead/acid block battery

The intAct Traction-Power/PZS series batteries are also suitable for use in a rough environment, especially for golf carts, cleaning equipment, mobile lifting platforms, electric lifting trucks as well as many other traction applications. The armour plate/tubu-

lar plate battery design results in superior stability and strength. As your partner for system solutions, we also offer the suitable chargers for recharging the sealed lead/acid batteries.

Product line: 12 V + 6 V traction batteries PZS
Model: Block battery, tubular plates, sealed, low maintenance
Status: GUG = filled and charged
Quality: OEM quality
Number of cycles: 1'000 cycles according to IEC 254-1
Purpose: Heavy cyclic use

Type of terminal: A = cone terminal according to DIN EN 60 095 T2
Properties: Durable, safe and reliable
Use: Golf caddies – electric wheelchairs – electric vehicles – mobile lifting platforms – car audio – recreational and sports vehicles – electric boats – cleaning equipment
